

**Zuni Tribal
Fishing, Waterfowl, & Small Game
Proclamation**

Approved: September 20, 2022

General Information

Important information you need to know before applying for any hunting and fishing activities on the Zuni Reservation. All game, fish, wildlife, natural resources, shed antler(s), skulls with antlers, all archeological artifacts and sites are protected on the Pueblo of Zuni by Tribal and Federal Law and may not be taken, possessed or transported by Non-Zuni Tribal members without proper permitting and documentation.

The sole purpose of this document is to provide written documentation for the Tribal Small Game, Waterfowl Hunting, & Fishing activities provided by the Zuni Fish and Wildlife Department (ZFWD) on an annual basis. Upon the Tribal Councils approval, this document will govern the activities of Tribal, Non-Zuni Residents, and Non-Zuni Spouse hunting and fishing activities administered through the Zuni Fish and Wildlife Department.

The license year of the Zuni Fish and Wildlife Fishing, Waterfowl, & Small Game Proclamation will begin September 1, 2022 and will end August 31, 2023.

By the Fishing, Small Game, and Waterfowl Hunting Proclamation that has been set forth and approved by the Tribal Council, only the Zuni Fish and Wildlife Department (ZFWD) and its recognized vendors may issue small game hunting & fishing permits.

The Zuni Fish & Wildlife Department offers a variety of hunting and fishing opportunities. Hunting permits for Zuni Tribal members, Non-Zuni Residents, and Non-Zuni Spouses are available for dove, waterfowl, small game, and coyotes. A Zuni Habitat Stamp is required for all hunting, fishing, and trapping activities. The sale of the habitat stamps will fund habitat improvement projects throughout the Zuni Reservation.

The Zuni Indian Reservation is Tribal Land and is not open to unauthorized public use. All visitors are expected to abide by all Zuni Fish & Wildlife and Game & Fish Department and other Tribal Regulations.

All applicants are responsible for reading and understanding the Proclamation Rules and Regulations before applying. The Proclamation Rules and Regulations, permit numbers, and permit costs are approved through end of 2022-2023 season.

- All Pet owners must keep dogs on appropriate restraints (leashes/harnesses) at all times.

Tribal Lakes

Please call the ZFWD to check the status and the conditions of the lakes listed below.

1. Ojo Caliente – Cool water fishery. 15 miles southwest of the Zuni Pueblo. At full capacity, the lake ranges from 60-61 surface acres. The lake is spring-fed and recharged by seasonal runoff; therefore, water levels fluctuate year to year. Rainbow Trout and Channel Catfish are stocked annually to support a put-grow and take fishery.
2. Eustace Lake – Cool water Fishery. The lake is 1.8 miles east of the Main Zuni Pueblo. At full capacity, the lake is 32 surface acres. The lake is spring fed and recharged by seasonal runoff and groundwater discharge seeps, and baseflows into the Zuni River. Therefore, water levels fluctuate year to year. Rainbow Trout and Channel Catfish are stocked annually to support a put-grow and take fishery.
3. Nutria #4 – Cool water fishery. The lake is 14 miles northeast of the Zuni Pueblo. At full capacity, the lake is 88 surface acres. The lake is recharged by seasonal runoff from Rio Nutria. Therefore, the water levels fluctuate year to year. Rainbow trout and Channel Catfish are stocked annually to support a put-grow and take fishery when conditions are favorable.
4. Nutria #2 – Cool water fishery. The lake is 11 miles northeast of Zuni Pueblo. At full capacity, the lake is 418 surface acres. The lake is recharged by seasonal runoff from Rio Nutria. Therefore, water levels fluctuate year to year. Rainbow Trout and Channel Catfish are stocked annually to support put and take fishery when conditions are favorable.
5. Blackrock reservoir – Cool water fishery. The lake is located 4 miles northeast of Zuni Pueblo. At full capacity, the lake is 436 surface acres. The lake is recharged by seasonal runoff from the Zuni River; therefor water levels fluctuate year to year. Rainbow trout and Channel catfish are stocked annually to support a put and take fishery when conditions are favorable.
6. Pescado Reservoir – Cool, warm water fishery. The lake is located 15 miles east of Zuni Pueblo. At full capacity, the lake is 120 surface acres. The lake is recharged by seasonal runoff from Cebolla Creek; therefor water levels fluctuate year to year. Rainbow trout and Channel catfish are stocked annually to support a put and take fishery when conditions are favorable.
7. Galestina A & B – Cold water Fishery. The lakes are located 11 miles southeast of Zuni Pueblo. At full capacity, both lakes combine for a 11.2 surface acre. The lake is recharged by seasonal runoff; therefor water levels fluctuate year to year. Rainbow trout are stocked annually to support both put-grow and/or put and take fishery when conditions are favorable.

Boating Rules & Regulations

- The use of a gas-powered motor on any Zuni Lake is prohibited unless authorized by the Zuni Fish & Wildlife Department.
- Only battery powered trolling motors are allowed on Zuni Lakes.
- All persons in canoe, kayaks, or rafts must wear a personal floatation device while the vessel is underway.
- Children 12 years and younger, must wear a personal flotation device at all times.
- Each vessel must carry a life jacket in good condition for each person on board and oars/paddle.
- Boating while under the influence of drugs or alcohol is prohibited.
- Clean, drain, and dry your boat and gear to stop aquatic invasive species.

Aquatic Invasive Species

Aquatic Invasive species (AIS) are any nonnative plants, animals, or pathogens that can harm our aquatic bodies, environment, and the economy. The Zuni Fish & Wildlife Department works with the U.S Fish & Wildlife Service (USFWS) and the Southwest Tribal Fisheries Commission to help stop the spread of AIS.

How You Can Help:

- Remove mud and aquatic plants from boats, trailers, gear including: waders, wader boots, life jackets, oar/paddle, etc.
- Pull drain plugs and empty live wells.
- Air and sun-dry boat compartments & equipment.
- Transfer of live fish from one waterbody to another is unlawful.
- AIS threats posed in New Mexico:
 - New Zealand Mud Snails
 - Zebra Mussels – moss balls sold in pet stores were recently discovered to contain invasive Zebra mussels. If you recently made a purchase of moss balls from any pet store, online, or any other source please visit the New Mexico Department AIS webpage: <https://www.wildlife.state.nm.us/fishing/fishing-regulations/aquatic-invasive-species/> or call NM AIS Coordinator: (505) 629-9867.
